

## New Resources posted on the Georgia Milestones webpage

The Achievement Level Descriptors for the new Algebra I and Geometry EOC measures have been posted; the Achievement Level Descriptors for Coordinate Algebra and Analytic Geometry have been updated to reflect the Georgia Standards of Excellence that are used as the basis of instruction this school year. You'll note that we have kept the 2014-2015 Achievement Level Descriptors posted for those two courses, based on the CCGPS, for interpretative purposes.

Under Parent Resources, we have two new brochures designed to help parents understand the Individual Student Reports. These resources are labeled 'Parent's Guide to EOG Score Report' and 'Parent's Guide to EOC Score Report.' Our thanks to Gwinnett County who created these brochures and allowed us to post for all.
