Hey Team 601,

Attached is our newsletter. In addition, there is information attached about Georgia Milestones. Also, we are having an issue with students bringing rubber bands to school. Most of the time, these end up all over the floor or used inappropriately. These are not allowed. If a student has these rubber bands in class, they will get a step. Obviously, if a student does pop them and hits another student, that is an office referral and not a step. I am putting a picture below so you will know what we are referring to. The craft bands are the popular ones. These are not needed at school. Please do not bring them. We hope you all have a great weekend.

Team 601
