Wifi Resources

Henry County Schools realizes that broadband internet access is essential to ensuring our students are able to learn remotely. We have confirmed with Charter Communications that they are partnering with school districts to ensure local communities are aware that they are providing the following:

- Free Spectrum broadband and Wi-Fi access for 60 days to households with K-12 and/or college students who do not already have a Spectrum broadband subscription and at any service level up to 100 Mbps. To enroll call 1-844-488-8395. Installation fees will be waived for new student households.
- Charter will continue to offer Spectrum Internet Assist, high -speed broadband program to eligible low-income households delivering speeds of 30 Mbps.
- Charter will open its Wi-Fi hotspots across our footprint for public use.
- Spectrum does not have data caps or hidden fees.

Comcast also plays a vital role in helping their customers stay connected – to their families, their workplaces, their schools, and the latest information about the virus – through the Internet. They have provided the following message to share with families of Henry County.

- We will make it even easier for low-income families who live in a Comcast service area to sign up by offering new customers 60 days of complimentary Internet Essentials service, which is usually available to all qualified low-income households for \$9.95/month.
- We are increasing Internet speeds for the Internet Essentials service from 15/2 Mbps to 25/3 Mbps for all new and existing customers, which will be the speed of the service going forward. In this way, we will ensure that Internet Essentials customers will be able to use their Internet service for all their increased needs as a result of this health crisis.
- Xfinity WiFi Free For Everyone: Xfinity WiFi hotspots across the country will be available to anyone who needs them for free – including non-Xfinity Internet subscribers. For a map of Xfinity WiFi hotspots, visit www.xfinity.com/wifi. Once at a hotspot, consumers should select the “xfinitywifi” network name in the list of available hotspots, and then launch a browser.
 - Pausing Our Data Plan: With so many people working and educating at home, we want our customers to access the internet without thinking about data plans. While the vast majority of our customers do not come close to using 1TB of data in a month, we are pausing our data plans for 60 days giving all customers Unlimited data for no additional charge.
 - No Disconnects or Late Fees: We will not disconnect a customer’s internet service or assess late fees if they contact us and let us know that they can’t pay their bills during this period. Our care teams will be available to offer flexible payment options and can help find other solutions.
