### **MHS Credit Recovery**

Students who earn a **final grade of 55-69** in an eligible course have the opportunity to participate in **Credit Recovery** through Georgia Virtual School (GAVS) and McDonough High School (MHS). Credit Recovery is a model designed for students to complete with limited assistance from a local school monitor, teacher, or facilitator. The coursework of the program is not intended for students who need one-on-one academic assistance or who did not get a basic understanding of course content the first time he/she took the course. Therefore, to be successful in this credit recovery effort, the student should be self-motivated and an independent learner who exhibits a strong personal commitment towards earning credit in this type of student-centered setting.

The prescribed program of instruction consists of a pretest, lesson and a post-test after the student achieves the desired level of mastery in the lesson, he/she will take the unit test in the presence of the facilitator. **The grade for the course is based (80%) upon the unit test scores, (essays when applicable), combined with (20%) from the final exam. The EOC is required for all EOC courses.**
