

Remote Learning Tips

You can help your children by providing them with a structure and routine, and being a positive force in their education.

- 1. Make a Space for Learning:** Kids achieve their best work in a quiet, comfortable and dedicated space devoted to learning.
 - ★ This will be a different set-up than where they normally play games or watch television.
- 2. Digital Quarantine:** Consider limiting your children's cell phones and tablets until their schoolwork, so that it can receive their undivided attention. Apps, games, and messaging features are fun, but they can also be distracting.
- 3. Monitor:** Check with students to make sure they're staying on task
- 4. Encouragement:** A simple "I love how hard you are working" does wonders; however, we also know kids love something tangible.
 - ★ Ideas for simple and manageable incentives are: special dessert, extra playtime outside, time on electronics, family game time or anything you know your child would love.
- 5. Fun:** Please provide balance for your child in not only working hard academically but also designating time daily for them to have FUN! Allowing them to take needed breaks, release energy, and engage in fun activities will help support their learning.
