DIVIDE AND PROSPER.

There's a simple way to make sure you're eating good proportions of the various foods you put on your dinner plate: half should be veggies and fruit, a quarter lean protein, and a quarter starch, which should mostly be from whole grains.

EAT BETTER. PLAY HARDER. LIVE HEALTHIER. LEARN EASIER.
WELLNESS IS A WAY OF LIFE!

SPORTS HER WAY

Girls' participation in high school sports continues to grow. Girls now make up 43% of all high school athletes, and girls who play high school sports are 73% more likely to graduate from college than girls who don't play a sport. The fastest growing high school sport in the U.S. is girls lacrosse, which showed a 53% jump in the number of participants during the 2010s.

One hundred ten years ago this month, on the morning of April 15, 1912, the "unsinkable" Titanic sank after hitting an iceberg just four days into its very first voyage. The ship was almost 900 feet long and 10 stories high, but it was no match for the iceberg -- it sank just 2½ hours after impact.

NUTRITION TO GO

Try to get in the habit of checking the labels on convenience foods marketed to kids. One dinner from a popular brand (containing chicken nuggets, mac and cheese, corn, and a dessert) contains all kinds of additives and chemicals, 9 grams of added sugar, and more than half a day's worth of sodium.

A QUICK BITE FOR PARENTS

Brain Ticklers

What belongs to you but is always used more by your friends?

(Hold the page upside down and read it in a mirror for the answer!)
