Supply and demand.

We're trying to continue to operate as close to our pre-pandemic level as possible. But, like the restaurant and food service sector generally, we're facing unprecedented supply chain challenges. Sometimes we may have to substitute an item at the last minute to give our customers the best, freshest options available that day. We thank our parents and kids in advance for your on-going understanding of this situation!

LOCAL HARVEST OF THE MONTH

VEGETABLE

Sweet Potatoes

Often called "yams" (although they're not really the same thing), sweet potatoes are among the most nutritious veggies of all. They have a natural, delightful sweetness that increases with storage and with cooking.

TURKEY TROT.

Thanksgiving dinner can add up to 4500 calories in one sitting!

But you don't have to just sit there. If we all made a point to take a vigorous walk (or trot!) before and/or after the big meal, we could offset some of those holiday calories - and enjoy some fresh air, too!

EAT BETTER. PLAY HARDER. LIVE HEALTHIER. LEARN EASIER.
WELLNESS IS A WAY OF LIFE!

WILD CHILD

The majestic wild turkey is nothing like its barnyard cousin on the Thanksgiving table. The wild ones can run 25 miles an hour and can fly at 50+. They sleep in trees, and the big males have been known to chase off humans who get too close. Wild turkeys prefer to eat nuts, seeds, and berries - but they'll also consume insects, frogs, lizards, and snakes.
