Test Prep Program Proposal

Applerouth Tutoring Service: Very willing to work with us and are flexible. Sessions will include Mock (pre-test) Test 1 week in advance of the first in-person session. Program will then run for 4 weeks alternating in-person sessions with self-prep work being conducted by the student using the Title I purchased materials. The Self-prep comes with a 1000+ study book that is used in conjunction with online application where the students can watch instructional videos teaching them how to answer various types of questions. Access to this online program will be provided for 12 months. Set up per student where they will have their own username and password.

The following are the options with pricing that they will provide. Test prep will be run in sessions leading up to the next scheduled test date. We will focus on 2 programs preparing students for either the Feb. 12, 2022 ACT test date **OR** Mar 12, 2022 SAT test date (only choose 1).
