

Rituals and Routines for Math

- ↗ Enter the classroom *SILENTLY* at all times.
- ↗ Sharpen at least 2 pencils before beginning the warm-up.
- ↗ When you are finished with the warm-up, take out and review any homework.
- ↗ If manipulatives, materials or references are on your desk, use them when and as directed. When you depart, leave them as you found them.
- ↗ Students should raise their hand and wait to be acknowledged before speaking out or leaving your seat.
- ↗ When moving into group work, move quickly and quietly- *AVOID IDLE TIME*.
- ↗ When working with partner(s), use *ACCOUNTABLE TALK*.
- ↗ Journal entries must include the date, journal topic, and must also meet the standard set for the length of the response.
- ↗ Bring required materials everyday unless you are otherwise directed.
- ↗ When leaving the classroom, return desks back to the original position, dispose of trash, and wait to be dismissed.
