Hello From

Melissa Loman

Growing up in Florida, I am no stranger to tourism and theme parks. Florida's unique landscape of magical places are my fondest childhood memories. Playing tuba while performing at the Magic Kingdom my freshman year is a golden memory, and it still brings a smile to my face every time I get to relive it with our student groups. I have a passion for student travel because I truly believe that these experiences we get to share with these students creates within them a life-long appreciation for learning and exploration. And that's exactly why we don't offer any cookie-cutter trips at Student Group Tours, we know that every adventure you take your students on should be just as unique as they are. Every trip is built from the ground up, with inclusions and itineraries that are fully customizable to not only match the needs and interests of your students, but also your budget. Our motto is "let us plan your best trip yet" and we hope to do exactly that for every client, and every student, every time.
