

# INTRODUCTION

- The information contained in the handbook is designed to give guidance to school administrators and others in preparing for any emergency that might arise at an athletic or other large group event.
- A large group event could be anything from a graduation at a high school to a PTA meeting at a school.
- There are checklists in this handbook to be completed and located in areas where large group events may occur. All administrators and other appropriate personnel should be made aware of the procedures.

## **LIGHTNING DETECTOR GUIDELINES**

**THE GHSA REQUIRES A LIGHTNING DETECTOR BE PRESENT AND OPERATIONAL AT ALL GHSA OUTDOOR COMPETITIONS**

- *The following operational guidelines apply to the operation of the SkyScan detectors:*
- *Each time SkyScan detects a lightning stroke, it will emit an audible warning tone (must be switched on) and lights the RANGE INDICATOR column.*
- *The full column will stay lit for approximately 3 seconds.*
- *The single indicator corresponding to the range of the detected stroke will then blink for approximately 25 seconds. This feature allows you to quickly see the distance to the last, closest detected stroke without waiting for the SkyScan to detect a new stroke.*
- *Since the average stroke of lightning is 6 miles long be aware that you are in immediate danger any time there is a detected lightning activity within 8-10 miles of your location.*
- *The SkyScan can also detect lightning patterns that indicate the presence of severe storms that may produce dangerous winds, heavy rains and tornadoes. When Sky Scan detects these type storms, it activates the SEVERE THUNDERSTORM WARNING and emits a 15 second continuous audible alarm different from the normal lightning alarm. The SEVERE THUNDERSTORM WARNING will stay lit as long as there is a danger.*
- *SkyScan is designed to operate in a vertical position.*
- *The RANGE SELECT SWITCH allows you to choose the distance at which detected lightning strokes will trigger the AUDIBLE WARNING TONE. The instruction book recommends that you use the AUDIBLE WARNING TONE at the maximum range whenever possible.*

- *The following guidelines apply to the general use of the detectors:*
- *A fully operational lightning detector is to be present at all outdoor athletic competitions.*
- *If a school has athletic facilities that are not located on the campus, additional detector(s) will need to be purchased in the event of two games occurring at the same time.*
- *An administrator (game manager) assigned to the event should be responsible for assuring that the detector is working and at the location.*
- *If a school has more than one event taking place on the campus, the game manager should notify the other locations if detection is noted.*
- *If detection is noted at a competition on campus and there are other teams practicing outdoors, they are to be notified and advised to follow the same guidelines being followed at the game site.*
- *It is the responsibility of the school athletic director to assure that the lightning detector(s) is working properly and has a charged battery.*
- *Be aware that storms can form directly over your location, offering little or no advance warning even when using SkyScan. You must remember that SkyScan does not predict where the next lightning stroke might occur. Thunderstorms are unpredictable and should be considered extremely dangerous. Common sense and extreme caution should always be used when confronting lightning and thunderstorm activity.*
- *If detection occurs and the players are sent indoors, an announcement is to be made to the spectators advising them of the situation and requesting them to seek shelter as well. Accommodations will have to be made to allow for spectators to leave and re-enter in a situation such as this.*

## SCHOOL SAFETY LAWS

**In addition to everyday laws enforced in your community, which include schools, the State of Georgia has specific laws that apply directly to the school safety zone. By enforcing stricter penalties, these laws help schools to enforce rules that contribute to the overall safety of the school.**

**OCGA 20-2-1180: Loitering in a School Safety Zone.** This statute requires visitors of a public or private school to check in at the designated location and give the reason for their visit. Use this law to stop gang members, drug dealers or other dangerous groups from operating near your school.

**OCGA 20-2-1181: Disrupting a Public School.** Removing disorderly individuals can help control dangerous behavior. This code section provides that any person who disrupts or interferes with the operation of a public school shall be guilty of a misdemeanor of a high and aggravated nature. Among other things, this is widely used for bomb threats.

**OCGA 20-2-1182: Persons Other Than Students Who Insult or Abuse Teachers in the Presence of Pupils.** Use this law to deal with parents, guardians or others who are not students at your school who insult, abuse, or upbraid teachers, administrators or bus drivers after being advised of the presence of minor children. Anyone who fails to leave the premises after being advised to do so is guilty of a misdemeanor.

**OCGA 20-2-1184: Failure to Report Criminal Activity.** This law requires that any teacher or other employee of a public or private school who has reasonable cause to believe that a student at that school has committed an act on school property or during any school function, which is prohibited by any of the following statutes: 16-5-21, 16-5-24, Chapter 6 of Title 16, 16-11-127, 16-11-127.1, 16-11-132 and 16-13-30, shall report the act to his or her immediate supervisor, who shall then notify the appropriate superintendent, the police authority, and district attorney. Any person who knowingly violates this code section will be guilty of misdemeanor.

**OCGA 16-5-61: Hazing.** This law prohibits any person to "haze" any student in connection with or as a condition or precondition of gaining acceptance, membership, office, or other status in a school organization. "Haze" means to subject a student to an activity which endangers or is likely to endanger the physical health of a student, regardless of a student's willingness to participate in such activity. Any person who violates this code section shall be guilty of a misdemeanor of a high and aggravated nature.

**OCGA 16-11-127.1: Possession of a Weapon on or Within 1,000 Feet of a School.** This statute provides penalties for possession of a wide range of weapons in the School Safety Zone. This can discourage carrying and using weapons.

**OCGA 16-13-32.4: Drug-Free School Zones.** This law states it is illegal to manufacture, distribute, dispense, or possess with intent to distribute a controlled substance or marijuana on or within a school safety zone. This law provides an additional charge to any person(s) who is already charged under OCGA 16-13-30.

**OCGA 3-3-21.1: Possession of Alcoholic Beverages on Public School Grounds.** This law makes it illegal to possess alcoholic beverages on any public school grounds.

***In addition to the laws described above, some penalties for other crimes committed upon schools grounds against students or school personnel are enforced with stronger penalties, including greater minimum incarceration times. Examples of these crimes include, but not limited to, the various degrees of assault and battery crimes.***
