I can explain what happens to the value of a digit as it shifts to the left or right and discover the decimal point remains between the ones and tenths place as the digits shift.

I can use whole-number exponents to denote powers of 10, up to 10 to the Power of 3.

Reading: I can determine two or more main ideas of a text and explain how they are supported by key details.

I can summarize the text.

I can analyze multiple accounts of the same event or topic, noting important similarities and differences in the point of view they represent.
