

Parent Notification of MTSS Support

Ola Middle School strives to ensure that all of our students achieve academic success. Henry County Schools implements a Multi-Tiered System of Support (MTSS) to ensure academic and behavioral supports and interventions are provided to assist students in making progress toward grade level proficiency. As part of our MTSS framework, we use assessment information and a problem solving process to identify students who are struggling in the classroom. Your child is currently having difficulties in the area of Math: Problem Solving or Reading Comprehension and will be receiving support through our Instructional Focus class period.

Your child will receive targeted interventions in addition to instruction on grade level standards. These interventions will be provided through small group instruction and will target your child's specific skill deficits.

Please read through the brochure for more information on our MTSS systems that we have in place at OMS. Your involvement and support are very important. If you have any questions or would like further information about plans in place to support your child, please contact us.

We look forward to working with you to support your child in being successful.

Dorothy Solsten, MTSS Administrator

Donald Helm, Assistant Principal
